**Venue:** Exhibition Hall, 4/F HKPC Building, 78 Tat Chee Avenue, Kowloon Tong.  
**Speakers:** Mr. Daniel Cheng, Delegation Leader & Chairman of HKEnvIA,  
Mr. T. Aoki, Engineering Manager of JFE Engineering Corporation  
Mr. P.H. Lui, Principal Environmental Protection Officer, EPD, HKSAR Government

### Programme Highlights

Solid waste management becomes a hot topic around the region recently and also was highlighted in the Policy Address 2009 by the Chief Executive such as the Integrated Waste Management Facilities by adoption of advanced incineration technology and the food waste recycling centre. Development of the EcoPark, saturation of the landfill sites and a number of key initiatives had been set in the “Policy Framework for the Management of Municipal Solid Waste (2005-2014)” are the concerns of the public. In order to learn the experience from advanced neighbourhood country, an Environmental Study Tour to Japan had been co-organized by 3 professional institutions and the Hong Kong Environmental Industry Association in October 2009 with 40 delegates.

The study tour included meeting with Kawasaki Government officials for the experience sharing on the development of the incineration plants, visits to Eco Town in Kawasaki, a biomass power generation company and 3 incineration / gasification plants in different districts. It was a fruitful tour and the participants had learnt much in the study tour.

A debriefing seminar is co-organised by the 4 organizers of the study tour again. The seminar will include sharing of findings in the study tour by the delegation leader, presentation of incineration technology and public acceptance experience by a Japan technology provider, the current status of the planning for solid waste management of Hong Kong by the Environmental Protection Department of the HKSAR Government, and a panel discussion session. The panel discussion would include the representatives from green group, journalist, academia and consultants, etc.
